SUBJECT: Purchase - Miscellaneous Water Pipe

In order to provide available piping to make necessary repairs to damaged or ruptured water mains, and to complete the necessary installation of fire hydrants to the City's water system whenever required enough stock pipe material should be purchased. To make even the minor repairs may require at least 1-20 ft. section of the proper diameter of class 52 ductile iron pipe.

During the budget process of 1981/82 the Budget Committee was informed at that time the City had no stock pile of ductile iron water pipe to utilize in the case of an emergency repair. The Budget Committee approved the fund allocation to purchase \$5,000.00 worth of material.

Since storage facilities are limited at this point in time, purchasing the total amount would not be practical.

Recommendation

1. Approval to ask for bid proposals from Water Pipe Distributors in the Portland Metropolitan Area for the following:

2-20'	Sections	4"	class 52 ductile iron pipe
2-20'	Sections	6"	class 52 ductile iron pipe
2-20'	Sections	8"	class 52 ductile iron pipe
2-20'	Sections	10"	class 52 ductile iron pipe
2-20'	Sections	12"	class 52 ductile iron pipe
2-20'	Sections	14"	class 52 ductile iron pipe
